

STEP 1 Your New Cornice

THANK YOU for purchasing our products. Your new cornice has been custom-crafted to your exact dimensions from the highest quality materials. Once installed, it will provide you with a lifetime of beauty and trouble-free use.

INSTALLING your new cornice is easy. Simply follow our step-by-step instructions. We recommend that you read through all the instructions before you start.

GETTING STARTED

REMOVE the cornice from the packaging until the cornice is installed to your satisfaction.

Check the diagram to make sure you have all the parts indicated for the appropriate type of installation.

TOOLS you need to install your shades: pencil, screwdriver, 1/4" nut driver, level, pliers and a drill with 7/64" drill bit.

Your brackets must be securely attached to the mounting surface. When screwing into a surface, the included screws must hit wood studs. Otherwise, use a secure fastener as illustrated (not included).

WALLBOARD OR PLASTER:

Use a secure fastener designed for hollow wall applications.

METAL: Pre-drill holes and use the included screws.

CONCRETE, STONE, BRICK OR TILE: Use a masonry drill and appropriate plugs, anchors or screws.

* When selecting a fastener, make sure it is designed to support the weight of the product being installed. Follow the fastener manufacturer's instructions for proper installation of the fastener.

Note: When installing screws with a drill, be careful not to over-tighten. This may cause the screw to break off in the wall or window frame.

STANDARD CORNICE

CORNICE WITH KEYSTONE

STEP 2 Cornice with Keystone Assembly

Turn both sides of the cornice and the keystone over onto their FACE and lay on a flat surface. Slide the keystone onto one side of the cornice as shown above. When assembled, the dustcover top of the cornice should be in the channel in the back of the keystone and the bolt holes in the keystone and in the back of the cornice should align.

STEP 2A Attaching the Keystone

Attaching the keystone to the cornice with the wingbolts provided.

STEP 2B Attaching Second Side

Follow the same procedure to attach the second side of the cornice.

STEP 2C Assembled Cornice

Assembled is complete. Proceed to Step 3.

For outside mount cornices. **PROCEED TO STEP 3.**

For inside mount cornices. **PROCEED TO STEP 4.**

STEP 3 Attaching Your Bracket - Outside Mount

Center the cornice over the window opening. Mark the position of the ends of the box on the wall. Attach the mounting brackets to the wall 3" in from the marks at the desired height. Make sure the mounting brackets are level with one another.

STEP 3A Mounting the Cornice

Set the cornice on top of the brackets. Center the cornice over the window and push the cornice back against the wall. Attach the cornice with the short screws provided.
